Elia Onofri

Postdoctoral Researcher · KAUST — CEMSE Division

Scientific Committee & Professor · MDA, Roma Tre
Affiliated · Digital Biology Unit, IAC–CNR
Member · De Cifris (Italian Cryptography Association)
Member · Mensa International
Coordinator · SIG Intellect Research, Mensa Italy

Research focus

Cryptography, (cyber)security & privacy as a foundation: from algebraic cryptanalysis and post-quantum constructions to privacy-preserving protocols.
Graph theory, applied mathematics, and artificial intelligence as a passion: from combinatorial structure and numerical modelling to learning systems and graph-based methods.
Turn mathematical structure into something you can prove, compute, or see as a mission.

Current work spans hallucination characterisation and detection in language models, AI-generated content fingerprinting via signal analysis, and the design of privacy-preserving cryptographic protocols. Earlier work addressed macroscopic traffic and pedestrian flow modelling, multi-scale simulation of biological and immune systems, and mathematical modelling of water transport and stone decay in cultural heritage conservation.

Experience at a Glance

Education

1 November 2020
31 October 2023

Doctor of Philosophy

Mathematics (Ph.D.), *Magna cum Laude*

Roma Tre University

Piazzale S. L. Murialdo, 1
00146, Rome, Italy
Tel. (+39) 06-5733 8254/03

- Thesis Title: ML- and graph-based methods for data analysis and prediction: applications in vehicular traffic, pedestrian dynamics, and computational biology
- Supervisors: Filippo Castiglione (BRC-TII), Emiliano Cristiani (IAC-CNR), Marco Pedicini (Roma Tre)
- Dissertation committee: Roberto Natalini (IAC-CNR), Fosca Giannotti (SNS Pisa), Vincenzo Bonifaci (Roma Tre)
- Defence Date: November 8th, 2023
- DOI: 10.13140/RG.2.2.32948.36489.

September 2018
March 2020

Master's Degree

Computational Sciences (M.Sc.), *Magna cum Laude*

Roma Tre University

- Curriculum: Cryptography and Security
- Thesis Title: "A Computational Investigation of the Cube Attack in General Finite Fields"
- Supervisor: Marco Pedicini
- Defence Date: March 18th, 2020
- Final Mark: 110/110 *cum Laude*

September 2014
October 2018

Bachelor's Degree

Mathematical Sciences (B.Sc.)

Roma Tre University

- Curriculum: Mathematics for scientific calculus
- Thesis Title: "About resolution of algebraic systems over finite fields: Buchberger Algorithm, Gröbner bases and Computational Complexity"
- Supervisor: Marco Pedicini
- Defence Date: October 18th, 2018
- Final Mark: 104/110

Schools and courses

1 November 2024 – 30 November 2024
Training course
Technology Transfer and Patent Protection
IAC–CNR, H2IOSC project
Instructed by Andrea Scilletta, IP Sextnat s.r.l.

17 June 2024 – 21 June 2024
Summer school
2nd CINI Summer School on HPC and Emerging Technologies
Trento University, Trento, Italy
WebSite: hpc-summer-school-24.disi.unitn.it

13 June 2022 – 17 June 2022
Summer school
Summer School on real-world crypto & privacy
Šibenik, Croatia (Org. by Radboud University, Nijmegen, Netherlands)
WebSite: summerschool-croatia.cs.ru.nl/2022/

6 June 2022 – 10 June 2022
Summer school
Boston Differential Privacy Summer School
Boston University, Boston (MA), USA
WebSite: bostondataprivacy.github.io/summerschool

1 September 2019 – 30 November 2019
Scholar internship
Foundation of High Performance Computing
Scuola Internazionale Superiore di Studi Avanzati di Trieste (SISSA)
Lectures from the master in High Performance Computing (ref. Luciano Teresi)

Work Experiences

Research

19 October 2025 – current
Postdoctoral Researcher
King Abdullah University of Science and Technology (KAUST)
Computer, Electrical and Mathematical Science and Engineering (CEMSE) Division
Box 4700, Thuwal 23955-6900, Saudi Arabia (KSA)
Conduct research in applied mathematics and computer science to identify and address biases in large language model (LLM) platforms across diverse operational contexts (ref. Roberto Di Pietro, project BAS/1/1701-01-01, Uncovering and Addressing Bias in LLM Interactions)

3 October 2024 – 17 November 2025
Researcher (RTD), III Level
National Research Council of Italy (CNR)
Istituto per le Applicazioni del Calcolo 'M. Picone' (IAC), Naples Operating Center
Via Pietro Castellino 111, 80131, Naples, Italia
Research activities in mathematical modelling, data analysis, implementation, and parallelisation of algorithms based on mathematical models (ref. Gabriella Bretti, project PNRR H2IOSC CUP B63C22000730005)

1 November 2023 – 2 October 2024
Research fellow with research grant (type A)
National Research Council of Italy (CNR)
Istituto per le Applicazioni del Calcolo 'M. Picone' (IAC)
Via dei Taurini 19, 00185, Rome, Italy
Development of a mathematical and computational multi-scale model for the in-silico simulation of the immune system response (ref. Paolo Tieri, project PRAESIIDIUM G.A. 101095672)

1 September 2022
31 October 2022

Occasional provision of services

The Solomon R. Guggenheim Foundation
Peggy Guggenheim Collection
Venier dei Leoni Palace, Dorsoduro 701, 30123, Venice, Italy

Develop of a pedestrian dynamics simulation. Measurement of the room occupancy inside the museum. Optimisation of visitors flows, to reduce termohygrometric fluctuations to better preserve artworks (ref. Luciano Pensabene)

15 October 2019
15 April 2020

Post-laurea research activity

Roma Tre University

Development and implementation of topological structures for point cloud management (ref. Alberto Paoluzzi)

June 2019
October 2019

Student internship

National Research Council of Italy (CNR)
Istituto per le Applicazioni del Calcolo 'M. Picone' (IAC)

Development of a software to gather, manage and analyse data from pedestrian tracking in IoT environment (ref. Emiliano Cristiani)

Teaching

A.Y.s 2022 – 2025

Substitute Teaching

"Roma Tre" University

Courses for mathematical sciences B.Sc. degree (L-35) and computational sciences M.Sc. degree (LM-40):

- *IN400 - Module A - Python Programming* [INF/01] (A.Y. 2024/25, L-35, LM-40)

Courses for the master in data analytics (MDA, first level):

- *Cryptography I* [INF/01] (A.Y. 2024/25, MDA)
- *Cryptography: Case Study* [INF/01] (A.Y. 2024/25, MDA)
- *Cryptography II* [INF/01] (A.Y. 2023/24, MDA)
- *Cryptography II* [INF/01] (A.Y. 2022/23, MDA)

A.Y.s 2020 – 2025

Supplementary Teaching (didattica integrativa)

"Roma Tre" University

Courses for mathematical sciences B.Sc. degree (L-35) and computational sciences M.Sc. degree (LM-40):

- *IN110 - Algorithms and data structure* [INF/01] (A.Y. 2024/25, L-35)
- *CR410/B - Public key cryptography* [MAT/02] (A.Y. 2023/24, LM-40)
- *IN110 - Algorithms and data structure* [INF/01] (A.Y. 2023/24, L-35)
- *CR410/B - Public key cryptography* [MAT/02] (A.Y. 2022/23, LM-40)
- *IN110 - Algorithms and data structure* [INF/01] (A.Y. 2021/22, L-35)
- *IN110 - Algorithms and data structure* [INF/01] (A.Y. 2020/21, L-35)

A.Y.s 2018–2023

Tutoring Teaching (Tutoraggio)

"Roma Tre" University

Tutor for mathematics and physics bachelor degree (L-30, L-35):

- *IN110 - Algorithms and data structure* (A.Y. 2022/23, L-35)
- *ad personam support for* 1st *year* (June 2021 – October 2022, L-30/L-35)
- *IN110 - Algorithms and data structure* (summer A.Y. 2020/21, L-35)
- *AM210 - Mathematical analysis 3* (A.Y. 2018/19, L-35)

Technical Skills

Operating Systems

OSX · Apple IOS · Linux · Microsoft Windows · Android · Docker

Programming Languages

C · Python · Java · C++ (scientific) · Julia · SQL/SQLite/PostgreSQL · MarkUp · MarkDown · SQL · CUDA · Bash · Rust · Pascal · XCode · Lambda Calculus · Node

Scientific Computing

MATLAB | Mathematica | Jupyter | NumPy/SciPy | OpenMP/MPI | PARI/GP | Torch

Software

Latex | Office | IWork | VS Code | Eclipse

Acadmic / Scientific Competences

Cryptogrraphy | Cybersecurity | Machine Learning | Graph Theory | ABM / Multiscale | Object Oriented | Artificial Intelligence | Comp. Biology | Comp. Topology

Others

Git | LLMs | Mentorship | Team Building | UML | Blockchain | 2D/3D Graphics | Video Editing | Cloud/HPC | Network

Research Activity

Invited Visitings

2024 | King Abdullah University of Science and Technology (KAUST), Saudi Arabia

May 2024 | Scuola Normale Superiore (SNS), Pisa, Italy

April 2024 | King Abdullah University of Science and Technology (KAUST), Saudi Arabia

Projects participation

2024–2025 | Humanities and cultural Heritage Italian Open Science Cloud (H2IOSC). NextGenerationEU – NRRP M4C2 – Project code IR0000029 – CUP B63C22000730005

2025 | MODA: Integrating MOdel-based and DAta-Driven Methods for Multiscale Biological Systems. INdAM – GNCS, CUP E53C24001950001

2024 | Numerical modeling and high-performance computing approaches for multiscale models of Complex Systems. INdAM – GNCS, CUP E53C23001670001

2021–2024 | European Regimen Accelerator for Tuberculosis (ERA4TB). Grant Agreement n. 853989, H2020-JTI-IMI2-2018-15-two-stage

Awards

2024 | Award CDE DTC Lazio 2024 – first edition
first prize for the best P.h.D. thesis in "HUB 3: Technologies for resources design and management" category.

Editorial Career

since July 2020 | Review Editor

Scientific and organisation committees

October 2025 – current | Scientific Committee

Master in Data Analytics
Roma Tre University. WebSite: master-data-analytics.it

3 December 2026 – 6 December 2026 | PC Member

Workshop "Network Science and Artificial Intelligence for Biomedicine & Health informatics" (NET-AI-BHI), "IEEE Bioinformatics & Biomedicine Conference" (BIBM) (Ed. 5th)
Dallas, TX, USA WebSite: sites.google.com/unicz.it/net-ai-bhi-2026

14 September 2026 – 18 September 2026 | General Program Chair

Sixth Young Applied Mathematicians Conference (YAMC-2026)
Turin, Italy. WebSite: yamc.it

15 December 2025
18z December 2025

PC Member

Workshop "Network Science and Artificial Intelligence for Biomedicine & Health informatics" (NET-AI-BHI), "IEEE Bioinformatics & Biomedicine Conference" (BIBM) (Ed. 4th)

Wuhan, China

22 September 2025
26 September 2025

Program & Organising Committee

Fifth Young Applied Mathematicians Conference (YAMC-2025)

Padua, Italy. WebSite: sites.google.com/view/yamc2025

February 2025
March 2025

Organiser

Kitware Visualization Toolkit (VTK), 30 hours

Course organised at IAC–CNR as part of the H2IOSC project

22 September 2025
26 September 2025

Scientific Committee

IXH24 – Italian XRPL Hackathon 2024

Parallel session for secondary schools

Rome, Italy. WebSite: decifris.it/ixh24

3 December 2024
6 December 2024

PC Member

Workshop "Network Science and Artificial Intelligence for Biomedicine & Health informatics" (NET-AI-BHI), "IEEE Bioinformatics & Biomedicine Conference" (BIBM) (Ed. 3rd)

Lisbon, Portugal

16 September 2024
20 September 2024

Program & Organising Committee

Fourth Young Applied Mathematicians Conference (YAMC-2024)

Rome, Italy. WebSite: sites.google.com/view/yamc2024

2022
2024

Program & Organising Committee

Tè di Matematica

Seminar cycle [ITA]

Roma Tre University. WebSite: ricerca.mat.uniroma3.it/seminari/te_di_matematica

2022
2024

Program & Organising Committee

Junior Seminars

An official Ph.D. students seminar cycle

Roma Tre University. WebSite: ricerca.mat.uniroma3.it/seminari/junior_seminars

2021
2022

Program & Organising Committee

General Topics in Mathematics (GTM)

An unofficial Ph.D. students seminar cycle

Roma Tre University. WebSite: sites.google.com/view/gtm-r3

22 March 2022
25 March 2022

PC member (Systems Security and Privacy)

13th *International Conference on Ambient Systems, Networks and Technologies (ANT)*

Porto, Portugal. WebSite: cs-conferences.acadiau.ca/ant-22

23 March 2021
26 March 2021

PC member (Systems Security and Privacy)

12th *International Conference on Ambient Systems, Networks and Technologies (ANT)*

Warsaw, Poland. WebSite: cs-conferences.acadiau.ca/ant-21

1 November 2021
4 November 2021

PC member (Security, Privacy, and Trust)

12th *International Conference on Emerging Ubiquitous Systems and Pervasive Networks (EUSPN)*

Leuven, Belgium. WebSite: cs-conferences.acadiau.ca/euspn-21

2 November 2020
5 November 2020

PC member (Security, Privacy, and Trust)

11th *International Conference on Emerging Ubiquitous Systems and Pervasive Networks (EUSPN)*

Madeira, Portugal. WebSite: cs-conferences.acadiau.ca/euspn-20

Invited Lessons and Speeches

7 September 2026	A Geometric Analysis of Small-sized Language Model Hallucinations, ICML'26 (Seoul, South Korea)
14 May 2026	Git. A 40-minute primer for researchers, CRI-Lab (KAUST, Saudi Arabia)
22 April 2026	Quantum & Post-Quantum Cryptography, Invited Talk @ CRI-Lab Quantum Masterclass (KAUST, Saudi Arabia)
14 April 2026	I-$(OT)^2$, Invited Lesson @ Applied Cryptography Course (KAUST, Saudi Arabia)
6 October 2025	Mathematical Modelling of Imbibition in Porous Media: From Diffusion Equations to the StoneVerse Platform, Math4cult2025 (IAC, Rome, Italy)
25 September 2025	Modelling Percolation and Stone Decay in Cultural Heritage through StoneVerse, YAMC 25 (Padua, Italy)
22 September 2025	AMELIA: A High-Performance Computing Infrastructure for Advanced Research (Poster), YAMC 25 (Padua, Italy)
10 September 2025	StoneVerse: The Open-Science Platform for Reproducible Modelling of Stone Decay, Digital Heritage 25 (Siena, Italy)
25 February 2025	Models and Methods in Cultural Heritage: The Open-Science StoneVerse Platform, Giornate IAC | AdR 7 (CNR, Rome, Italy)
17 February 2025	mR_{LWE}-CP-ABE: a Recoverable CP-ABE Protocol for Post-Quantum Cryptography, Graduate Seminar | CEMSE (KAUST, Saudi Arabia)
14 February 2025	Adversarial Examples in Machine Learning: Taxonomy and Insights, CySec Group Meeting | TGIT (KAUST, Saudi Arabia)
21 January 2025	On the Modelling of Granuloma-Like Structures: An Overview from In-Vitro to In-Silico Modelling, MDN Winter Semester (Sapienza University of Rome, Italy)
2 December 2024	Introduction to Python: a discussion on advantages and criticalities (IN490 course invited talk, Roma Tre University)
6 May 2024	Managing pedestrian flows in crowded museums: a mathematical perspective from data gathering to optimisation (PYSANUM: Pisan Young Seminars in Applied and NUmerical Mathematics, SNS, Pisa, Italy)
18 April 2024	β-contraction: a Framework for Contracting Coloured Networks. Use Cases and Applications (KAUST, Saudi Arabia)
15 April 2024	A gentle introduction to Fully Homomorphic Encryption (Applied Cryptography invited lesson, KAUST, Saudi Arabia)
1 February 2024	Multi-scale and ML-aided models for vehicular traffic (Heterogeneity on the Road, Padua University)
15 December 2023	mR_{LWE}-CP-ABE: a revocable CP-ABE for post-quantum cryptography (Cifris'23, Consob, Rome)
19 September 2023	Managing crowded museums (YAMC-2023, Siena University)
18 September 2023	A gentle introduction to clustering (Mini-course, YAMC-2023, Siena University)
10 May 2023	How machine learning can improve macroscopic models for traffic state estimation and forecast (Junior Seminars, Roma Tre University)
13 April 2023	Validate *in silico* modelling of GLS (ERA4TB Workshop, Rome)
20 December 2022	A brief introduction to Multi-threading and Multi-processing: Pthreads, OpenMP and MPI (IN490 course invited talk, Roma Tre University)
25 October 2022	In-Silico Granulomas: preliminary results (ERA4TB, IDMIT, Paris)
21 September 2022	AI for Traffic Data Analysis (YAMC-2023, Arenzano)
20 September 2022	Basics in Traffic Modelling (Mini-course, YAMC-2023, Arenzano)
8 July 2022	A brief introduction on Differential Privacy (DBU Smol Tolks, IAC-CNR, Rome)

28 February 2022 | On tweakable black-box polinomials: the cube attacks family (GTM seminars, Roma Tre University)

24 January 2022 | Attribute-based colouring and its applications in reducing problem's size (GTM seminars, Roma Tre Univ.)

14 December 2021 | A brief introduction to Multi-threading and Multi-processing: Julia Parallel Computing (IN490 course invited talk, Roma Tre University)

13 December 2021 | The role of the applied mathematician: optimise pedestrian flows in crowded museums (GTM seminars, Roma Tre University)

7 December 2021 | A brief introduction to Multi-threading and Multi-processing: Pthreads, OpenMP and MPI (IN490 course invited talk, Roma Tre University)

29 November 2021 | RSSi-based visitor tacking in museums via cascaded AI classifiers, (PED21, online)

25 November 2021 | On real-world implementation of RSA cryptosystem: HandsOn (CR410 course invited talk, Roma Tre Univ.)

18 November 2021 | On real-world implementation of RSA cryptosystem: Theory (CR410 course invited talk, Roma Tre University)

14 May 2021 | Macroscopic vehicular traffic simulations and linear programming problems (IN440 course invited talk, Roma Tre University)

1 July 2021 | About Existence of Adversarial Examples in Neural Network Classification problems with Small Hamming Distance (GTM seminars, Roma Tre University)

10 December 2020 | ML-based Algorithms and Models for Analysing Heterogeneous Data (Young researchers day, IAC-CNR).

23 May 2019 | Snowden Backdoor. https://matematicafisica.uniroma3.it/articoli/pre-snowden-backdoor-298/

29 April 2019 | A brief description about Proof Nets: the bridge between Modern Logic and Computer Science.

18 January 2019 | A brief presentation about Hamilton's Ideals.

Academic Competitions

10 May 2019 | MOR19 Team (R. Musto, E. Onofri, E. Rocchi)
Catch the Mark 2019
First classified

15 December 2018 | ACOP18 Team (L. Andrianaivo, P. Collagè, E. Onofri, M. Parsi)
Cryptowars 2018
Fourth classified in both sections (Theoretic/Applied Cryptography)

Conference Attendance (as speaker)

6 July 2026 – 11 July 2026 | *Forty-Third International Conference on Machine Learning (ICML'26)*
Seoul, South Korea

6 October 2025 – 8 October 2025 | *Mathematical tools for Cultural Heritage (Math4cult2025)*
Rome, Italy

22 September 2025 – 26 September 2025 | *Fifth Young Applied Mathematicians Conference*
Padua, Italy

8 September 2025 – 13 September 2025 | *Digital Heritage '25*
Siena, Italy

24 February 2025 – 25 February 2025 | *IAC Days '25*
Rome, Italy

16 September 2024 – 20 September 2024 | *Fourth Young Applied Mathematicians Conference*
Rome, Italy

1 February 2024 – 2 February 2024 | *Heterogeneity on the Road*
Padua, Italy

14 December 2023 – 15 December 2023
1st congress of the Italian association of cryptography (Cifris23)
Rome, Italy

18 September 2023 – 22 September 2023
Third Young Applied Mathematicians Conference
Siena, Italy

12 April 2022 – 14 April 2022
Host immune system-pathogen interactions: Challenges and Opportunities (ERA4TB–WP5 workshop)
Rome, Italy.

18 September 2022 – 22 September 2022
Second Young Applied Mathematicians Conference
Arenzano (Genoa), Italy

26 April 2022 – 28 April 2022
Modelling of drug-disease-host interactions and prediction of antibacterial activity of drug combinations in humans (ERA4TB-WP5 workshop)
Rome, Italy

29 November 2021 – 30 November 2021
Pedestrian and Evacuation Dynamics Conference 2021
Melbourne, Australia (online)

Funding and Grants

2024
INdAM–GNCS Grant No. E53C23001670001 for Organising Workshops, Schools, and Conferences

Students

current
Master Degree in Mathematics (LM-40)
Davide Sabatini
Thesis title:

7 March 2025
Master Degree in Computational Sciences (LM-40)
Vallifuoco Augusta Gioia
Thesis title: Estensione di uno Schema KP-ABE basato su Reticoli: Implementazione e Analisi del Meccanismo di Revoca

13 January 2025
Master Degree in Computational Sciences (LM-40)
Serena Massarone
Thesis title: A Systematic Analysis of Scale-Free Effects on Coloured Graph Contraction

25 January 2024
Master Degree in Computational Sciences (LM-40)
Davide Moretti
Thesis title: About clustering of time series – A case study with traffic data by Autostrade Alto Adriatico S.p.A.
Relatore interno: Vincenzo Bonifaci

19 October 2023
Master Degree in Computational Sciences (LM-40)
Francesca Bacco
Investigating Coloured Graph Contraction for Analyzing Large Graphs
Relatore interno: Flavio Lombardi

13 July 2023
Laurea Triennale in Matematica (L-35))
Valerio Ardizio
Sugli schemi di *Secret Sharing*
Relatore interno: Francesca Merola

26 October 2022
Master Degree in Computational Sciences (LM-40)
Francesca Giulianelli
Homomorphic Encryption: an application to Linear Regression
Relatore interno: Marco Pedicini

Affiliations

October 2024 current	Researcher *IAC–CNR node of the CINI national laboratory on HPC*
